Chatty
March 2022

I was part of a team that worked within an agile methodology. My responsibilities were UX/UI design and front-end development using Flutter framework.

Master/Slave Architecture
October 2022

I setup replication MySQL (MariaDB) on CentOS7 and implemented model-view-controller (MVC) using CodeIgniter 3 to insert data on the master and query data on the slave.

Benchmark desktop application
December 2021

I designed GUI and developed it using Python with Tkinter. The program was used to benchmark the CPU, memory, and disk performance of my PC.
